

Package Drop Test Machine (Two-Wing Type)

Product summary:

EI-6002A Package drop test machine (two-wing type) used to test the damage and impact of packaged products by the free fall, including packing containers Ling, angle, surface can be tested, it mainly used to assess withstand drops of product packaging parts in the transport and loading, thereby improving and perfecting package design.

Applicable industry:

EI-6002A Package drop test machine (two-wing type) applied to all factories and enterprises, technical supervision departments, the commodity inspection authorities, research institutes and other departments for testing and researching.

Technical Parameter:

Model	EI-6002A
Controller	LCD touch screen (Operation Control)
Testing height	400 ~ 1500mm
Maximum load of specimens	80kg
Maximum size specimen	800 x 800 x 1000mm
Bottom size	1400 x 1200 x 20mm
Falling error	±5mm
Falling plane error	<1°
Power supply	Single phase 220V, 50Hz
Dimension	1570 (D) x 1000(W) x 2050(H) mm
Weight	Approx. 200kg
